

GILDAN®

CATALOGUE 16/17

WHICHEVER DECORATING PROCESS YOU CHOOSE, GILDAN® GIVES YOU THE HIGHEST QUALITY CANVAS.

This catalog features recommended decorating processes to get the best result for your artwork.

DIRECT TO GARMENT

A specialized inkjet printer applies inks directly to the garment, where the fibers absorb the ink to create a very durable design. It works well for short runs or full-color printing on high stitch density garments.

*Direct to
Garment*

EMBROIDERY

Embroidery creates needle-and-thread works of art. It delivers a level of sophistication or perceived value to any project, and is a great choice for heavier weight garments that are not highly elastic.

Embroidery

HEAT TRANSFER

Heat and pressure combine to transfer images from high-release paper to garments. It works well on light-color cotton, cotton blend and polyester fabric, or when you have shorter runs or turnaround times.

*Heat
Transfer*

SCREEN PRINT

Screen printing (or silk screening) uses stencils and ink to create designs on garments. Consider this approach for large-volume projects that involve cotton or cotton-blend fabrics.

GILDAN[®]
Genuine Responsibility[™]

MAKING APPAREL BETTER

Genuine Responsibility[™]

From the very beginning we have believed that owning our own factories would allow us to make better quality apparel and deliver better value to our customers. Along the way we have redefined HOW apparel is made... by integrating responsible and sustainable practices into every stage of the process, we have improved our environmental, social and economic impacts.
